

PROPERTIS COBALT 2-ethyl hexanoate

Appearance	Bluish Violet Liquid
Molecular Formula	$C_{16}H_{30}CoO_4$
Molecular Wt.	345.42 g/mol
Metal Content	10% & 12%
Density	1.01 g/cm ³
Flash Point	40 ^o c
Proportion	For cold curing generally 0.2% with applicable Resin

Note:

- This substance cause fire when heated
- It is an eye irritant
- It is a skin irritant, if it comes into contact with the skin wash it with a lot of soap and water
- Gloves and glasses should be used when working with tis substance
- Avoid mixing this sustenance directly with Peroxides

Storage temp: 30^oc ±5
